Continued Examination Under 37 CFR 1.114

A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on June 3, 2005 has been entered.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Mark Konieczky on Ausgust 3, 2005.

The application has been amended as follows:

Claim 4, line 5, the term "fragments" has been deleted.

Claim 7, line 2, the phrase "function containing group" has been changed to -- cyclodextrin --.

Claim 7, line 4, the "alkoxyl-" has been changed to - - alkoxy- - -.

Claims 17-19 have been deleted.

Reasons For Allowance

The following is an examiner's statement of reasons for allowance: The reason for indicating allowable subject matter is that the prior art of record does not teach or fairly suggest an aminooxy-cyclodextrin of the formula 1 set forth in instant Claim 1 and aminooxy protected derivatives thereof. Upon reconsideration, it was agreed that the Varaprasad et al reference (Bioorganic Chemistry, Vol. 14, pages 8-16, (1986)) does not set forth an aminooxy protected derivative of an aminooxy-cyclodextrin compound.

Art Unit: 1623

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
